25X1

30 July 1969

MEMORANDUM FOR: Deputy for Operations, OSA

SUBJECT: Personnel Requirement, [] Division

25X1

REFERENCE: Memorandum for Comptroller, OSA, from
Deputy for Operations, OSA, dated 14 July 1969
Subject: Administrative Follow-up Actions
Required to Support the Establishment of the
[] Division (OSA-2020-69)

25X1

1. With respect to the nine (9) positions requested to be provided by January 1970 for the recently established [] Division, there are currently approved for FY 70 a total of five (5) positions. Four (4) of these positions have been allocated to Deputy for Operations and one (1) position is tentatively being held in abeyance for future use.

25X1

2. Since any new positions beyond those presently approved will undoubtedly require reallocation to D/Ops from within OSA, it would be appreciated if consideration be given to the following:

a. Since communication support to OSA and other elements of the DD/S&T is supported by Commo Division/Ops/OSA, would it be desirable to incorporate [] commo requirements within the present Commo Staff without increasing the existing Commo T/O?

25X1

b. Will the [] Field unit which in part includes positions for a Flight Systems Manager and a System Support Manager be staffed by technically competent contractor personnel? (It would appear desirable to consider this aspect since the Agency is not equipped to provide qualified staff personnel to fill these positions.)

25X1

c. What role will Agency Communications personnel have in the testing and operational phases of the Project?
